SPECIALIST CLINIC

DR BRAD WONG

Radiation Oncologist
MBBS. FRANZCR.

Brad completed a Bachelor of Medicine and Surgery (MBBS) at the University of Adelaide before undertaking his radiation oncology training in South Australia. In 2015 he was awarded Fellowship to the Royal Australian and New Zealand College of Radiologists (FRANZCR). He currently practices as a consultant radiation oncology specialist with GenesisCare in Nambour and Chermside.

Brad is committed to the continued improvement of patient care through the delivery of advanced treatment techniques, including volumetric modulated arc therapy (VMAT), image guided radiotherapy (IGRT) as well as stereotactic radiation therapy (SRT) and stereotactic ablative body radiation therapy (SABR). In recent years Brad has presented at multiple national meetings in the space of prostate and skin radiotherapy. He regularly participates in multidisciplinary team meetings and believes in a holistic approach to patient care.

Brad has an established record of achievement in clinical teaching and has been awarded the academic title of Senior Lecturer by the University of Queensland School of Medicine. As well as supervising medical student tutorials, he is also a clinical examiner at the University of Queensland. He has previously served as the chairman of the Wide Bay Urology MDT.

Highly active within his profession, Brad is a fellow of the Royal Australian and New Zealand College of Radiologists (RANZCR) and is a member of the Trans Tasman Radiation Oncology Group (TROG), the American Society for Radiation Oncology (ASTRO), the European Society for Radiotherapy and Oncology (ESTRO) and the Australia and New Zealand Urogenital and Prostate Cancer Trials Group (ANZUP).

While working across all tumour types, Brad has specific clinical expertise and interest in the management of prostate & urological, skin, breast and palliative patients. His current major technical interests are in the field of stereotactic radiation therapy and the use of 3D bolus for wide field skin treatments.
